STATEMENT UNDER ARTICLE 19(1)

Sir:

Claims 1 and 7 have been amended to refer to the absence of external electrical power used in the method for protection of submerged marine surfaces.

Claim 5 has been amended to replace the word "additional" by the word "any".

The process of the claimed invention uses a thermal spray process not disclosed in Kaiser U.S. 4,992,337. The JP 61124679A article shows only treating a textile surface.

With respect to Littauer, the present application uses no external electrical power.

Respectfully submitted,
